

Get ready for CMMC with our effective compliance consulting and remediation services. Reduce your level of efforts & risks. Start your journey with WCG today to maintain and win DoD contracts!

What is CMMC?

The **Cybersecurity Maturity Model Certification (CMMC)** is the Department of Defense's (DoD) latest verification mechanism designed to ensure that cybersecurity controls and processes adequately protect Controlled Unclassified Information (CUI) that resides on Defense Industrial Base (DIB) systems and networks.

The CMMC establishes **five certification levels** that reflect the **maturity and reliability of an organization's cybersecurity infrastructure** to safeguard sensitive government information on contractors' information systems. This framework is the vehicle by which the government will mandate a contractor's cyber security maturity level to be verified by an independent third-party audit.

Are you CMMC compliant?

The CMMC is mandatory for **all contractors** doing business with the DoD at any level. **All contractors** are required to obtain a CMMC certification. This includes all suppliers at all tiers along the supply chain, small businesses, commercial item contractors and foreign suppliers. No organizations are permitted to receive or share DoD information related to programs & projects without having completed the CMMC Compliance.

CMMC TIMELINE

0	•	October 2019: CMMC implemented requirements released
0	•	January 2020: Version 1.0 finalization; compliance checklist released.
0	•	June 2020: DOD Signed Memorandum of Understanding with CMMC Accreditation Board.
0	•	September 2020: Interim version was published.
0	•	October 2020: CMMC will begin appearing in Requests for information (RFIs).
0	•	Early 2021: CMMC will begin appearing in Requests for proposals (RFPs) in early 2021.

As of October 2020, the CMMC-AB is working through its initial stand up phase and working to meet the requirements of the DoD. So, **no contractors are currently CMMC certified**. Are you ready to become CMMC-compliant and win federal business? Connect with WCG to let us help **TODAY**!

▼ CMMC MODEL STRUCTURE

		PROCESSES	PRACTICES	
LEVELS	Cybersecurity Maturity	Maturity Process Progression	Cybersecurity Maturity	CMMC Practice Progression
LEVEL 1	Performed	0 processesSelect practices are documented where required	Basic Cyber Hygiene	 17 practices Equivalent to all practices in Federal Acquisition Regulation (FAR) 48 CFR 52.204-21
LEVEL 2	Documented	 2 processes Each practice is documented, including Level 1 practices A policy exists that includes all activities 	Intermediate Cyber Hygiene	·
LEVEL 3	Managed	 3 processes Each practice is documented, including lower levels A policy exists that cover all activities A plan exists, is maintained, and resourced that includes all activities 	Good Cyber Hygiene	 130 practices Comply with the FAR Encompasses all practices from NIST SP 800-171 r1 Includes an additional 20 practices to support good cyber hygiene
LEVEL 4	Reviewed	 4 processes Each practice is documented, including lower levels A policy exists that covers all activities A plan exists that includes all activities Activities are reviewed and measured for effectiveness (results of the review is shared with higher level management) 	Proactive	 156 practices Comply with the FAR Encompasses all practices from NIST SP 800-171 r1 Includes a select subset of 11 practices from Draft NIST SP 800-171B Includes an additional 15 practices to demonstrate a proactive cybersecurity program
LEVEL 5	Optimizing	 5 processes Each practice is documented, including lower levels A policy exists that covers all activities A plan exists that includes all activities Activities are reviewed and measured for effectiveness There is a standardized, documented approach across all applicable organizational units 	Advanced/ Progressive	 171 practices Comply with the FAR Encompasses all practices from NIST SP 800-171 r1 Includes a select subset of 4 practices from Draft NIST SP 800-171B Includes an additional 11 practices to demonstrate an advanced cybersecurity program

"With over 70% of DoD data living in contractor networks, the US Government recognizes that the previous self-certification is no longer sufficient to protect the US DoD information systems. Prior to the CMMC mandate, all vendors would self-certify on their compliance status to DFARS 252.204-7012."

Katie Arrington, Chief Information Security Officer for the Assistant Secretary of Defense Acquisition

Don't know where your organization stands?

Don't worry! Let WCG provide you with Consulting and Remediation services to ensure you are compliant with CMMC.

★ WCG's Approach

WCG is your reliable partner that understands the compliance landscape and has the experience of working with federal third-party vendors. Although the CMMC-AB program is not yet finalized, we are offering consulting and remediation services based on the latest draft version of the certification model to help you get ready for CMMC Compliance.

CMMC CONSULTING

- WCG provides
- ✓ a top-down assessment and gap analysis of your organization's cybersecurity posture,
- $\begin{tabular}{ll} \checkmark identification of the CMMC scope to help your organization align with CMMC controls, and \\ \end{tabular}$
- a comprehensive readiness assessment report with concise and clear recommendations

CMMC REMEDIATION

- **WCG** works with our clients to develop a Plan of Action customized to their organizations to:
- √ address deficient controls
- \checkmark close the gap on compliance, and
- ✓ reach your desired, targeted CMMC-level and become compliant.
